

You scan.
It types!

The IRISPen™ Express 6 is an intuitive and affordable text recognition pen scanner.
Simply slide it over printed information.
And get completely editable text, right at your cursor.

IRISPen™ *express 6*

for Windows & Macintosh

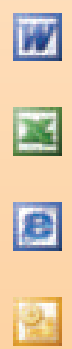

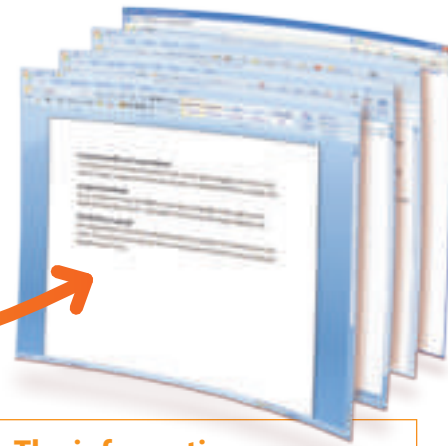

The Most Intuitive Electronic Highlighter

IRISPen™ *express* 6

Scan text into your computer

and many more

1 Highlight the information you need

2 The information is instantly retyped

Capture information from newspapers, catalogs, magazines, faxes, letters, etc, directly in your favorite application. What you get is editable and real text, right where your cursor is.

Faster than ever!

Retype information 30 faster than manually.

Read text and numbers

Capture words, sentences, paragraphs from any printed material into your computer.

Smart wizard

Text, numbers or small images? Whatever you need to scan, the intuitive wizard guides you in the process.

Super compact, super portable!

The smallest pen scanner ever designed for text recognition.

Scan images in grayscale

Logos, signatures, and any small graphics are quickly scanned into your document!

3 user profiles

Easily create a user profile according to your retyping needs. Customize it the way you like it!

Extended applications

Excel, Word, Emails, Text Edit, Page, ... you name it! If you can type it in, you can scan it in with the IRISPen™.

128 OCR languages

Extensive foreign language support enables it to accurately recognize an incredibly vast number of foreign languages.

Keyboard shortcuts

Easily use the pen button instead of the keyboard to Enter, Tab, Space, etc.

The IRISPen™ has won more than 60 industry awards for its innovation and common sense approach to productivity.
